

MAGNUS
SEAMLESS DISTRIBUTION

Take Your Business To The Edge With Future-Forward Solutions From **MAGNUS**

About **US**

Magnus is an authorized distributor of the world's leading technology products and has the top brands in Wireless & Networking, Unified Communications, Security Surveillance, Server & Storage, Cyber-security and more.

We are committed to delivering services with unmatched quality and value to our broad network of channel partners.

Our Vision

To be one of the leading Value-Added Distributor in the region.

Our Mission

To be a Distributor of choice.

Value Added **Distributor**

Magnus leverages its direct relationships with world class technology vendors to provide solutions that meet the most demanding needs of our partners. We support our partners with products specializing in Networking, Wireless, Unified Communication, Security Surveillance, Server & Storage and Cyber-Security Solutions.

Teamwork Makes It Possible

Our services for partners cover everything from consulting and assessment to design, implementation, and ongoing support.

Pre-sales

Our teams of accredited industry experts work closely with our partners from the very onset of a project, offering complete pre-sales consultancy and solution design services as well as existing design configuration and review.

Warehousing

With efficient warehouse facilities, we ensure a smooth and organized distribution process while keeping the inventory safe and secure at every stage.

Logistics

Magnus ensures the smooth and timely movement of products from the warehouse to the customer, providing complete support to guarantee on-time and reliable delivery.

Traning

We organize regular and customized training sessions on the latest technologies and product advancements, conducted in collaboration with our vendor partners.

Marketing

An energetic marketing team ensures each brand reaches its right audience. Through the effective use of digital channels, we run demand generation campaigns that boost visibility and enhance brand awareness.

D-LINK is a globally recognized leader in networking technology, offering a comprehensive range of solutions for both business and home users. Their portfolio includes networking, broadband, wireless, data/voice communications, and converged digital connectivity solutions. With a focus on innovation and quality, D-Link designs products that enable seamless connections, resource access, and communication among consumers and businesses worldwide.
